

Our Mission

The Young Democrats of America Jewish Caucus (YDAJC) is an organization dedicated to building the young Democratic Jewish political community. YDAJC seeks to engage young democrats in issues of particular Jewish concern and to invigorate young Jews to engage in politics from a progressive Democratic perspective. YDAJC accomplishes this task through a combination of education, awareness, and social interaction as well as political advocacy on issues of Jewish concern.

Who We Are

The Young Democrats of America Jewish Caucus is a caucus under the national 527 organization Young Democrats of America (YDA). We work with groups like the National Jewish Democratic Council and YDA to advocate for issues important to the Jewish community with particular attention to issues that concern young Jews.

What We Do

YDAJC works to increase awareness for issues of progressive and Jewish concern, advocate on behalf of those issues both in the Jewish and Democratic communities, and build a network of engaged progressive Jews nationwide. YDAJC accomplishes this task by providing educational opportunities to learn about important issues, by sponsoring resolutions, participating in lobbying events, and contacting members of congress to influence policies, and by hosting social and networking events.

Our Issues

- ***Church and State***
- ***Civil Rights***
- ***Darfur***
- ***Death Penalty***
- ***Environmental Protection***
- ***Immigration***
- ***Israel***
- ***Reproductive Rights***
- ***Worker's Rights***

and more . . .

What Can You Do?

YDAJC is a progressive Jewish organization focusing on issues as varied as Darfur, Israel, the environment, and the separation of church and state. As a partisan organization, YDAJC works with leaders of the Democratic party to address these issues.

The board of YDAJC is a national group of young involved individuals who care about these issues and pursue Tikkun Olam through political means. As a diverse and national organization, YDAJC is in the process of building state chapters across the country.

Please visit our website, join our mailing list, and tell us what you would be willing to do to self-actualize about issues you care about. Our contact information can be found on the back of this brochure.
